Work Experience

Software Developer at Novek Engineering

October 2019 - October 2020 // Nairobi, Kenya.

- ❖ Developed and shipped performant code for internal and client-facing web applications
- ❖ Wrote robust frontend code in ReactJS using Redux for state management
- ❖ Created wireframes and prototypes in Adobe XD and similar tools for intuitive UIs
- ❖ Wrote automated tests for UIs using Jest, the React Testing Library and similar tools
- ❖ Wrote documentation and product specifications for internal products

Associate Software Engineer at Andela

November 2018 - October 2019 // Nairobi, Kenya.

- ❖ Collaborated on the development of a web based dashboard designed to streamline engagement between low income earners and financial coaches in the US
- ❖ Built robust features for the RESTful API in TypeScript, NodeJS and ExpressJS with a PostgreSQL database for data persistence
- ❖ Contributed intuitive features into the ReactJS UI using Redux for state management
- ❖ Served as a Technical Team Lead to a team of trainee software developers helping graduate them to Associate Software Engineers

Assistant Designer / Assistant Project Coordinator / Structural Engineer

May 2015 - March 2017

- ❖ Held various roles in the construction industry. Details available on request.

Education

BSc. Civil and Construction Engineering

October 2010 - April 2015

University of Nairobi
